

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Accepted Securities List as of March 2023

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginalable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Accepted Securities List as of March 2023

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Accepted Securities List as of March 2023

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginalable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

Accepted Securities List as of March 2023

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginalable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Accepted Securities List as of March 2023

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratio may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

- Definition:
1. **Loan to Value Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
 2. **Initial Margin Ratio** refers to the initial margin you should have to open a new position for the security.
 3. **Maintenance Margin Ratio** refers to the minimum margin you should have to keep the position for the security.
 4. **Forced Selling Ratio** refers to the minimum margin you should maintain to avoid forced liquidation.

Security Code	Symbol	Company Name	Market	Loan to Value Ratio %	Long				Short			
					Marginable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %	Shortable	Initial Margin Ratio %	Maintenance Margin Ratio %	Forced Sell Ratio %
