

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

You should consider all information contained in the PDS thoroughly. The information contained in this document does not take into account your personal objectives, circumstances, financial situation or needs.

Accepted Securities, Loan to Value Ratio, and Margin Ratios may change at any time. You can check the Accepted Securities via the Webull App. Accepted Securities will have a blue dollar icon displayed on the top right when you tap into a stock. It will show the amount of leverage you can use for each security.

Definition:

1. **Loan to Value (LTV) Ratio** means the maximum loan amount you can borrow for the security divided by the value of your portfolio market value.
2. **Initial Margin (IM) Ratio** refers to the initial margin you need to have to open a new position for the security.
3. **Maintenance Margin (MM) Ratio** refers to the minimum margin you need to have to keep the position for the security.
4. **Forced Liquidation Margin (FLM) Ratio** refers to the minimum margin you need to maintain to avoid forced liquidation.

Symbol	Name	Market	Security Type	LTV Ratio %	IM Ratio %	MM Ratio %	FLM Ratio %	Shortable	Short IM Ratio %	Short MM Ratio %	Short FLM Ratio %
